

# Omar Allam

## Sr. Front-End Engineer

### SUMMARY

---

I am a Senior Front-End Developer with over 7 years of experience in building scalable and performance-driven web applications. My expertise includes Angular, React, and Next.js, complemented by a solid understanding of design systems and CI/CD workflows. I am passionate about debugging and leading UI/UX improvements while collaborating seamlessly in cross-functional teams

### EXPERIENCE

---

#### Senior Front-End Developer

**Watania Solutions Co. | KSA | Hybrid ( Full-time )**

Apr 2023 - Present

- Architected React-based Micro Frontends using Webpack and Module Federation
- Refactored legacy platforms into Next.js, improving performance and maintainability
- Built dynamic components and reusable UI libraries aligned with design system standards
- Performed extensive unit testing with Jest and created mock services for integration tests
- Collaborated with backend and DevOps teams to streamline deployment pipelines

#### Senior Front-End Developer

**Asuro | Germany | Remote ( Contract )**

Sep 2022 - Apr 2023

- Developed scalable Angular 17 applications using Nx Monorepo architecture
- Improved performance by lazy-loading modules and optimizing change detection
- Wrote Cypress end-to-end tests and integrated them with GitHub Actions
- Mentored junior developers and performed code reviews for quality assurance

#### Senior Front-End Developer

**Englease.com | UAE | Remote ( Contract )**

Nov 2021 - Sep 2022

- Implemented React components embedded inside a Laravel backend
- Integrated third-party APIs (ZOHO, Zapier, Zoom, Intercom) with authentication and state logic
- Served as the main technical point for marketing and customer success teams
- Led UI enhancements and mobile-first optimizations

### Technical Skills

---

#### Front-end Frameworks

- React.js
- Angular
- Next.js
- JavaScript

#### Markup & Styling

- HTML
- CSS
- SASS
- SCSS
- Tailwind
- Bootstrap

#### Component Libraries

- Angular Material
- MUI
- React Bootstrap

#### UI/UX & Design

- Figma
- Adobe XD
- Accessibility (WCAG)

#### Testing

- Cypress
- Jest
- Jasmine

#### Architecture

- Webpack
- Nx Monorepos
- Module Federation

#### DevOps

- Git
- GitHub
- Bitbucket
- Azure

## Team lead Front-End Developer

### Lun for Software Development | KSA | Remote ( Part-time )

Nov 2021 - Mar 2022

- Managed a small team delivering a React dashboard with Firebase real-time updates
- Integrated Google Maps APIs and Teller Payments with dynamic configurations
- Set up Agile sprints and defined Git workflow standards
- Implemented scalable UI component patterns using SASS and Tailwind

## Front-End Instructor

### IT Share | Egypt | Hybrid ( Part-time )

Sep 2020 - Sep 2022

- Taught MEAN and MERN Stack front-end diplomas to over 100+ students
- Prepared real-life examples, projects, and problem-solving exercises
- Conducted workshops on Angular and React best practices

## Front-End Developer

### Creative Motion | UAE | On-Site ( Full-time )

Jul 2019 - Oct 2021

Started as a Junior Developer, quickly adapting to a fast-paced agency environment and overcoming challenges in working with diverse client requirements.

Built mobile-first user interfaces for marketing websites and enterprise portals using React and Angular, ensuring responsive design and cross-browser compatibility.

Entered the role with basic Angular knowledge and significantly improved expertise by delivering production-ready features and complete modules within tight deadlines.

Collaborated closely with designers and QA testers, applying Agile practices to shorten delivery cycles and ensure high-quality releases. Developed CSS utilities and reusable layout templates with SASS, which improved consistency and reduced development time across projects.

## Back-end

- Node.js
- Laravel
- Passport

## Database

- MongoDB
- MySQL

## Integrations

- ZOHO CRM
- Google Maps
- Intercom
- Zoom APIs
- Zapier
- Teller

## Practices & Methodologies

- Agile
- Scrum
- Jira
- Code Reviews
- Team Mentorship
- Click Up

## EDUCATION

---

Bachelor of Business Administration

Canadian International College (CIC)

Sep 2015 - Oct 2019

## LANGUAGES

---

- Arabic ( Native )
- English ( Advanced )

## CERTIFICATION

---

- Diploma in MEAN Stack
